

TSS Solutions is a global leader providing mission-critical support, operations, and depot services for Radar and SATCOM systems. TSS offers innovative repairs, upgrades, modernization, and obsolescence engineering services. Our teams of experts are among the most highly experienced men and women in the industries we serve, and they bring extraordinary passion and proven experience to our customers.

We've Got Your Track™

RADAR SOLUTIONS

TSS Solutions deploys state-of-the-art technology upgrades that provide enhanced capabilities over those originally designed, rivaling the most modern radar systems available today. We deliver significant increases in operability and functionality of deployed radar systems that meet or exceed the capabilities of the newest radars systems available at 10% - 15% of the cost of a buying new. Radar Leasing available.

SATCOM SOLUTIONS

TSS Solutions has decades of success in engineering, modernizing, installing, integrating, testing and commissioning more than 1,000 worldwide earth stations, antennas, and electronics for many of the most trusted operators in the world.

DEPOT REPAIR & UGRADES

TSS Solutions offer unique solutions that bring legacy equipment up to current new system capabilities at significant cost savings when compared to buying new. While we are modernizing the technology, user interaction remains virtually the same, eliminating the need for re-training when desired.

TSS Solutions, an Acorn Growth Company, is a professional defense electronics engineering and manufacturing company specializing in the upgrading, re-engineering, repair and operation of ground-based tactical and fixed position radar and SATCOM systems. We serve the global defense, telecommunications, and commercial industries. Since 1991, TSS Solutions has evolved its designs and incorporated technology advancements and improvements into systems originally developed by some of the most powerful aerospace and defense brands in the world.

TSS Solutions innovation and engineering expertise are supported by our full-service in-house Depot operations. As owners of several radar systems, and providers of systems for lease, TSS Solutions is uniquely positioned to provide the optimal mix of the low cost of acquisition and leasing, fast delivery, service life extension, and ongoing maintenance and operations support services anywhere.

Our mission is simple and clear – build innovative products and deliver world-class engineering and technical service to support our customers’ missions, globally.
